G2. Dates in German.

To turn a number into a date in German you have to add some extra letters to the end of the number. Numbers 1-19 you add "ten" and numbers 20-31 you add "sten". For example to say the fourth you would write vierten or the 20th would be "zwanzigsten".

Exceptions to the rule.

As always, not every number follows this rule so watch out for the following dates!

1st = ersten, 3rd = dritten, 8th = achten.

Don't forget, when you get to 21 you have to swap the units and the tens around so to say the 21st you would write "einundzwanzigsten".
