

## Year 8 Geography Learning Journey 2024-2025

Week	Date	Component Knowledge	😊	Assessment
1 (Thurs)	5.09.24	<b><u>Coastal systems and processes</u></b>		
2	9.09.24	Ocean waves are created by the wind over a stretch of open water (fetch)		
3	16.09.24	Weathering occurs to exposed land by atmospheric and biological processes		
4	23.09.24	Erosion creates coastal features such as cliffs, caves, arches, stacks and stumps		<b>Skill</b>
5	30.09.24	The ocean transports material along the coast by the process of longshore drift		
6	7.10.24	Deposition creates coastal features such as beaches, spits, bars and tombolo		
7	14.10.24	Coastal defences are used to protect the coastline using hard and soft engineering		
8	21.10.24			<b>E of U</b>
<b>Half term</b>				
9	4.11.24	<b><u>Asia Case Study</u></b>		
10	11.11.24	The natural environment of Asia has a broad range of biomes		
11	18.11.24	Population distribution is very uneven across Asia		<b>Skill</b>
12	25.11.24	Asia has significant inequality between and within countries		
13	2.12.24	The monsoon season is an annual weather pattern influencing life in tropical latitudes		
14	9.12.24	Rural-urban migration is increasing the size of India's cities, and leads to slums forming.		
15	16.12.24	China has experienced rapid economic growth in recent years making it a NEE		<b>E of U</b>
<b>CHRISTMAS</b>				
16	6.01.25	<b><u>Natural Hazards</u></b> happen and become hazards when they affect people		
17	13.01.25	The processes of convection, ridge-push and slab-pull slowly move the tectonic plates around		<b>Skill</b>
18	20.01.25	Earthquakes and volcanic eruptions are created by tectonic movement along plate boundaries		
19	27.01.25	Natural hazards can be especially devastating in poorer parts of the world		
20	3.01.25	Tropical storms are seasonal extreme weather events in the Tropics		
21	10.02.25	Tropical storms form from low pressure air over a warm tropical ocean		<b>E of U</b>
<b>Half term</b>				
22	24.02.25	<b><u>Development</u></b>		
		Countries are at different stages of development (HIC, NEE, LIC)		
23	3.03.25	Social measures are development indicators of what peoples' lives are like		
24	10.03.25	Economic measures are development indicators of peoples' level of wealth		<b>Skill</b>
25	17.03.25	The employment structure of country shows the economic activity		
26	24.03.25	Standard of living is a quantitative measure of wealth and possessions		
27	31.03.25	Quality of life is a subjective measure of how content people are with their life		<b>E of U</b>
<b>EASTER</b>				
28(BH)	21.04.25	<b>Exam Prep</b>		
29	28.04.25	<b>Annual Exams Core</b>		
30(BH)	06.05.25	<b>Annual Exams foundation please adapt accordingly</b>		
31	12.05.25	<b>Annual Exams foundation</b>		
32	19.05.25	<b>Annual Exams/ RAP/ addressing misconceptions</b>		
<b>Half term</b>				
33	2.06.25	<b><u>Globalisation</u></b>		
		Globalisation is the process of increased interconnectedness of the world		

34	9.06.25	Globalisation influences our daily lives		
35	16.06.25	Transnational Companies (TNCs) are huge companies that operate all over the world linking it through trade		<b>Skill</b>
36	23.06.25	Globalisation has both positive and negative socioeconomic impacts on the lives of people across the world		<b>E of U</b>
37	30.07.25	<b><u>UK Political and Physical Landscape</u></b> The United Kingdom is a union of four countries The relief (shape of the land) of Great Britain is uneven		
38	7.07.25	The population of Great Britain is unevenly distributed		
39	14.07.25	Activities week		

<b>Name:</b>		<b>Summer Y8</b>	<b>Autumn</b>	<b>Spring</b>	<b>Summer</b>
<b>Subject Target:</b>		<b>Flightpath</b>			
<b>Annual Exam Grade:</b>		<b>BFL</b>			

Assessments- Colours indicate the main Key Constructs which is being covered in the assessment. KC not shown in the assessments will be covered in the Annual Exam and other assessment-								
Date	Autumn Assessment	Grade	Date	Spring Assessment	Grade	Date	Summer Assessment	Grade
Aut 1			Spr 1			Sum1		
Aut 1			Spr 1					
Aut 2			Spr 2			Sum 2		
Aut 2			Spr 2					

### Key Constructs

1. Physical processes collectively contribute to the dynamic and ever-changing nature of Earth's physical landscapes.
2. The human experience on Earth is shaped by interlinked patterns and processes.
3. Environmental change is caused by physical processes and human impacts.
4. Human actions have increased climate change which in turn is affecting physical processes.
5. Processes and patterns occur on different scales.
6. Geographical skills help us to interpret and understand human and physical processes and patterns.
