

## Year 9 Geography Learning Journey 2024-2025

Week	Date	Component Knowledge		Assess ment
1 (Thurs)	5.09.24	<b><u>Physical Earth</u></b>		
2	9.09.24	Geological timescales represent the history of Earth recorded in rock layers made over the last 4 billion years		
3	16.09.24	The crust of Earth is made of igneous, sedimentary and metamorphic rock		
4	23.09.24	Soil is the essential (for life) top layer of the Earth's surface typically comprised of organic matter, clay and rock particles		<b>Skill</b>
5	30.09.24	The climate of Earth changes due to natural processes over geological time		
6	7.10.24	Glaciation is the process of increased ice coverage due to a cold climate phase		
7	14.10.24	Glaciers slowly erode the landscape in mountainous or high latitude locations		
8	21.10.24	Glaciers create erosional landforms in upland areas.		<b>End of unit</b>
Half term				
9	4.11.24	<b><u>Africa Case Study</u></b>		
		The African continent has a range of tropical biomes		
10	11.11.24	The relief (shape of the land) of Africa influences climate and land use		
11	18.11.24	Historical events (colonialism) have shaped modern Africa		<b>Skill</b>
12	25.11.24	Hunter-gatherers are still present in Africa (the Akie people of Tanzania)		
13	2.12.24	Lagos city, Nigeria, is experiencing rapid urbanisation		
14	9.12.24	Employment structures change over time (Nigeria Example)		
15	16.12.24	The Middle East is an area with a high concentration of NEE countries		<b>End of unit</b>
CHRISTMAS				
16	6.01.25	<b><u>Resource Issues</u></b>		
		Resources are anything that we use to meet our wants and needs like Food, Water and Energy which are unevenly distributed.		
17	13.01.25	Desertification is the process of land degradation to the point of ecological failure		<b>Skill</b>
18	20.01.25	Deforestation is the removal of trees from forested areas for use or making space for other activities		
19	27.01.25	Ocean health is essential for the natural systems of Earth		
20	3.01.25	Human activities are changing the climate on Earth		
21	10.02.25	Climate change has consequences for natural systems. Humans are adapting and mitigating against climate change.		<b>End of unit</b>
Half term				
22	24.02.25	Urbanisation is the increase in population of urban areas caused my people migrating to cities and towns		
23	3.03.25	Settlements are in a hierarchy - from isolated farms up to megacities		
24	10.03.25	Settlements are interdependent; they rely on each other to function		
25	17.03.25	Exeter's Princesshay area was redeveloped		<b>Skill</b>
26	24.03.25	Lagos city, Nigeria is experiencing rapid growth in urban population		
27	31.03.25	Tiverton's Eastern Urban Expansion (EUE) will increase the size of the town		<b>End of unit</b>
EASTER				
28(BH)	21.04.25	Exam Prep		
29	28.04.25	Annual Exams Core		
30(BH)	06.05.25	Annual Exams foundation please adapt accordingly		
31	12.05.25	Annual Exams foundation		
32	19.05.25	Annual Exams/ RAP/ addressing misconceptions		

Half term				
33	2.06.25	RAP/ addressing misconceptions		
34	9.06.25	Natural Hazards		
35	16.06.25	Natural Hazards pose major risks to people and property		
36	23.06.25	Earthquakes and volcanic eruptions are the result of physical processes		Skill
37	30.07.25	Volcanic hazards independent research		
38	7.07.25	The effects of a tectonic hazard vary between areas of contrasting levels of wealth		End of unit
39	14.07.25	Activities week		

<b>Name:</b>		<b>Summer Y9</b>	<b>Autumn</b>	<b>Spring</b>	<b>Summer</b>
<b>Subject Target:</b>		<b>Flightpath</b>			
<b>Annual Exam Grade:</b>		<b>BFL</b>			

Date	Autumn Assessment	Grade	Date	Spring Assessment	Grade	Date	Summer Assessment	Grade
Aut 1			Spr 1			Sum1		
Aut 1			Spr 1					
Aut 2			Spr 2			Sum 2		
Aut 2			Spr 2					

### Key Constructs

1. Physical processes collectively contribute to the dynamic and ever-changing nature of Earth's physical landscapes.
2. The human experience on Earth is shaped by interlinked patterns and processes.
3. Environmental change is caused by physical processes and human impacts.
4. Human actions have increased climate change which in turn is affecting physical processes.
5. Processes and patterns occur on different scales.
6. Geographical skills help us to interpret and understand human and physical processes and patterns.
