WIP – will plan the topics outline, however schedule will change.

Some things to be clarified

- Are mocks taking place in November OR will they only take place in February?
- Are the exams due to start in late June / early July?

- Will the MFL exam exclude a speaking exam due to safety issues? Will this then lead to teacher endorsement? What does an endorsement mean?
- What other clashes will there be on the calendar, that could mean twicks to this?
- How much should we assess in year 11, considering course content has not been reduced and students have missed a term's worth of school teaching & learning?

Also vibes getting from my students this week...

- Not all have really looked at transport and holidays booklet
- Some not started skills booklet

So for year 10 consolidation – need to address the following things....

- Opinions with justifications (touch on yr 9 & yr 10 topics)
- Reinforce with Conti grid on Transport I made and revisit comparatives!!
- Tenses!! - use free time activites/entertainment/new technology/school
- Reinforce with some work on holidays!!

This will hopefully allow us to touch on transport and holidays briefly so we can revisit in the exam focus section.

Also by doing transport, it leads nicely into the Environment topic.
