

Learning with Google Classroom

A simple guide to help you get started.

Tiverton High School

If you read these notes

you should be able to...

- **login** to Google Classroom.
- **find your way around** to access the most important features.
- **pick up information** from your classes.
- **find tasks that you have been asked to complete.**
- **know which tasks you have completed.**
- **know where to read feedback** from a teacher.

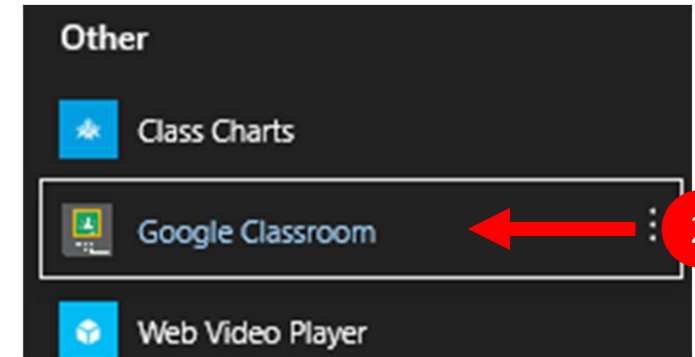

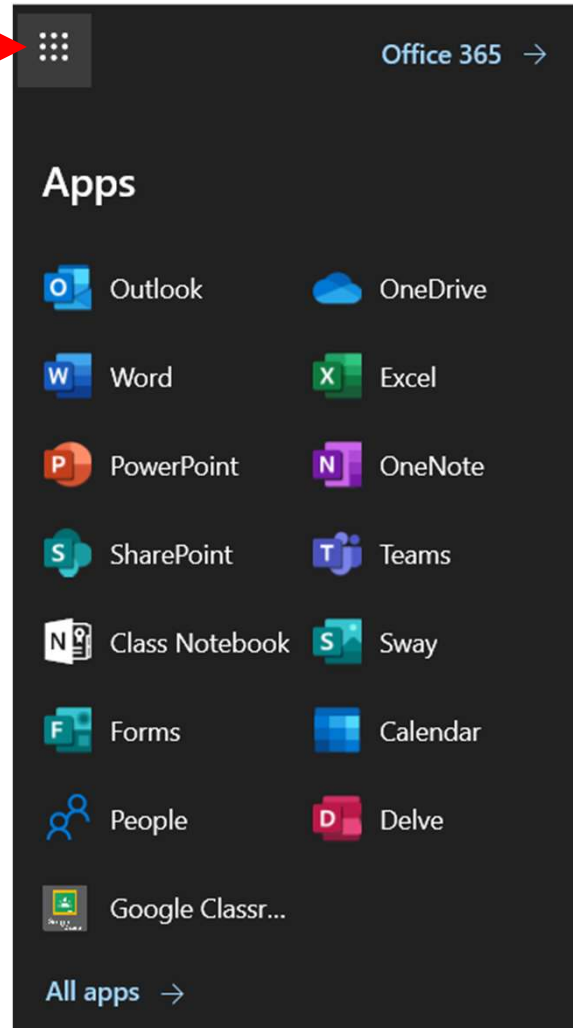

Go to Office 365, just as if you were checking your email

1

click on the **Apps** button in **Office 365**

look for the **Google Classroom** icon

You may need to click on **All apps** → if it is the first time you are trying this

2

Look for the
Google Classroom
app in Office 365

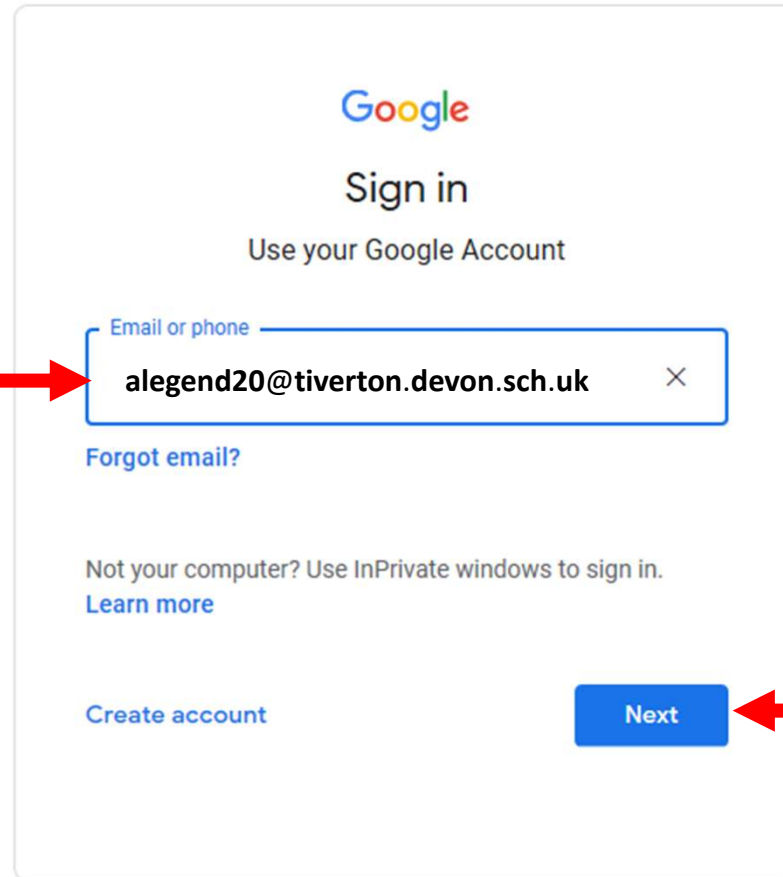

Mr Forder has **automatically** linked your **school account** to Google Classroom.

You should not need to supply any credentials if you enter Google Classroom through Office 365.

Or log in to <https://classroom.google.com>

1

Type in your full school email address

The screenshot shows the Google sign-in interface. At the top is the Google logo, followed by 'Sign in' and 'Use your Google Account'. Below this is a text input field labeled 'Email or phone' containing the email address 'alegend20@tiverton.devon.sch.uk'. There is a small 'x' icon to the right of the input field. Below the input field is a link for 'Forgot email?'. Further down, there is a note: 'Not your computer? Use InPrivate windows to sign in.' with a 'Learn more' link. At the bottom left is a link for 'Create account' and at the bottom right is a blue 'Next' button.

Don't use a private email address e.g. your Gmail account. (it won't work!)

You must use your school address.

Click **Next** once you are ready to log in

Each course is usually divided into **sections**.

These can help you to find things that you are looking for.

New tasks stand out because they have a brightly coloured icon.

Tasks that you have **completed** turn **grey** when you have **completed** them.

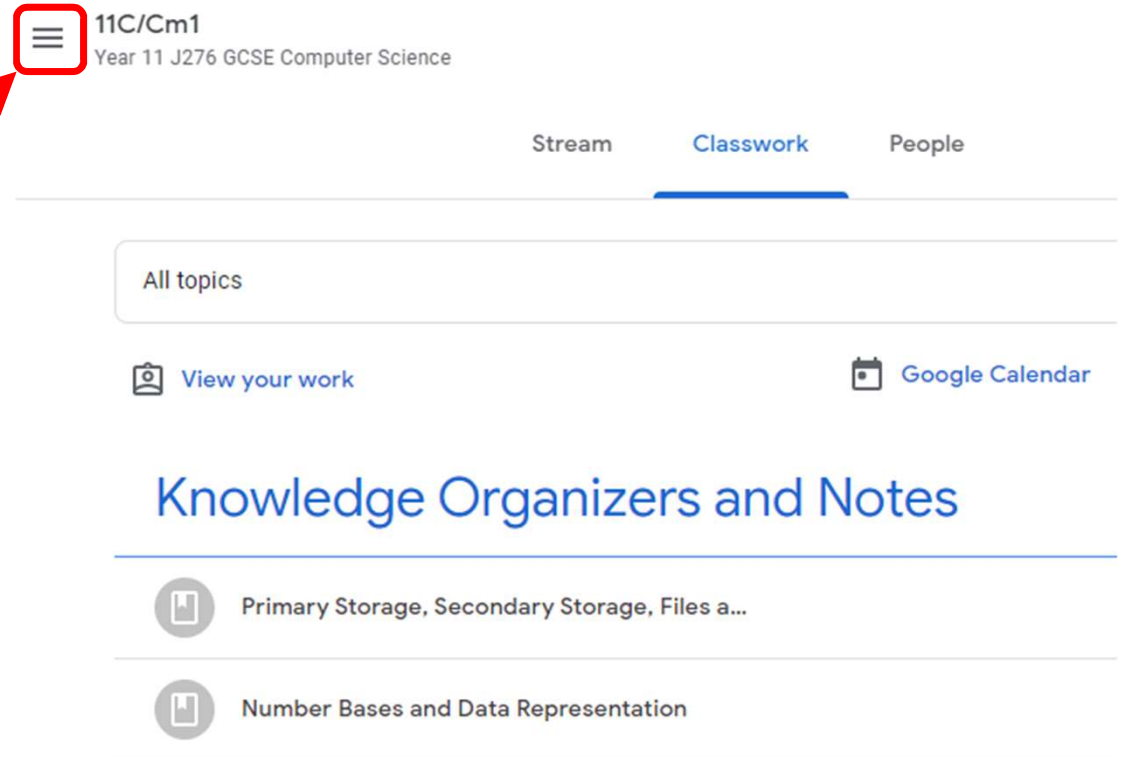

You will find tasks that your teacher has set in the **Classwork** section for each class.

Opening up a different course

If you would like to take a look at a different subject, press the **menu button**.

This will let you choose a **different subject**.

It also lets you open up the **calendar** to see what tasks have been set and when they are due to be handed in.

The screenshot shows a course page for '11C/Cm1 Year 11 J276 GCSE Computer Science'. At the top, there are three tabs: 'Stream', 'Classwork', and 'People', with 'Classwork' selected. Below the tabs, there is a search bar containing 'All topics'. Underneath the search bar, there are two links: 'View your work' with a folder icon and 'Google Calendar' with a calendar icon. The main heading is 'Knowledge Organizers and Notes'. Below this, there are two items listed: 'Primary Storage, Secondary Storage, Files a...' and 'Number Bases and Data Representation'. A red arrow points from the text box on the left to a menu button (three horizontal lines) located at the top left of the course page.

Handing in some work

Revise for quick-test about Computer Architecture

Phil Gardner • 14 Sep

Due 22 Sep

Learn the definitions for a stored program computer, hardware and software.

Make sure you can

Handing in some work is very similar to how you normally attach a file to an email in Office365.

You **choose** one or more files and **upload** them to Google Classroom, before pressing the **Done** button to send them to your teacher.

Don't worry... if you accidentally upload the **wrong** file, you can press the **Unsubmit** button to try again.

Click on + Add :

1

Choose FILE

Now choose which file you want to upload

The image shows a screenshot of a Google Drive interface. On the left, there is a sidebar for an 'Assignment' with a title 'Revise for quick-test about...', instructions, and a list of tasks. The main area displays the 'Insert files using Google Drive' dialog box. This dialog has tabs for 'RECENT', 'UPLOAD', 'MY DRIVE', and 'STARRED'. The 'UPLOAD' tab is highlighted with a red dashed box and a red circle containing the number '1'. A red arrow points from this box to a red text box that says 'You usually need to **upload** a file from your computer.' Below the dialog, there is a 'BROWSE' button and the text 'or drag a file here'. A red arrow points from a red text box that says 'Click on **BROWSE** to find the file on your hard-drive that you want to hand in.' to the 'BROWSE' button, which is also marked with a red circle containing the number '2'.

Once you have chosen and uploaded the file, press the **Done** button. The button will then change to say **Hand in**.

Click on **Hand in**.

Your teacher can send you feedback about your work

Python Challenge 1-1: Input, process, output

Phil Gardner • 29 Sep (Edited 29 Sep)

9/10

Write a program that will let you type in two whole numbers, then display their product (the product is what you get when the numbers are multiplied together).

Test your code in Python. Does it run correctly? Does it produce the results that you expect?

Once working, please submit your .py Python file for me to mark.

Don't forget to use # to add comments in your code, explaining how each part works or what you are trying to do.

Use the video link below if you find this question difficult. It is a step-by-step video tutorial that will show you how to solve the problem.

If you open up a task that you have previously completed, you should be able to see any **feedback** that your teacher has sent you.

You can **reattempt** a task again if you need to.

 **Phil Gardner** 10:48
Well done - your program works.
I like the infinite loop to repeatedly execute your code. Use \n within a print statement to force Python to start a new blank line on the screen.
