Special Educational Needs and Disability (SEND) Policy

This policy is in line with our teaching and learning policy and equality of opportunity policy and aims to support inclusion for all of our children. The responsibility for the management of this policy falls to the Head teacher; the day-to-day operation of the policy is the responsibility of the Special Educational Needs and Disabilities Co-ordinator (SENDCo). The Governing Body, Head teacher and the SENDCo will work together closely to ensure that this policy is working effectively.

High quality teaching is that which is differentiated to meet the needs of the majority of Students. Some students will need something additional to and different from what is provided for the majority of students; this is special educational provision and we will use our best endeavours to ensure that provision is made for those who need it.

The Federation of Tiverton Schools will do its best to ensure that the necessary provision is made for any student who has special educational needs and/or disabilities by making reasonable adjustments inline with those possible for the particular setting. We will ensure that all staff in the school are able to identify and provide for those students who have special educational needs or disabilities to allow students with SEND to join in the activities of the school.

The staff and governors of The Federation of Tiverton Schools will also work to ensure that all SEND students reach their full potential, are fully included within the school community and are able to make successful transfers between educational establishments. This policy aims to support all members of staff in providing positive whole school approaches towards the learning, progress and achievement of SEND students. With this as an underlying principle, we believe that:

***All teachers are teachers of pupils with Special Educational Needs.
Every teacher is responsible and accountable for the progress and development of all students in their class even where students access support from teaching assistants or specialist staff.***

Teaching and supporting students with SEND is therefore a whole school responsibility requiring a whole school response. Meeting the needs of students with SEND requires partnership working between all those involved – Local Authority (LA), school, parents/carers, students, children's services and all other agencies.

School Admissions

In line with the Equality Act 2010, we will not discriminate against disabled children in respect of admissions for a reason related to their disability. We will use our best endeavours to provide effective educational provision considering advice from other services.

Parents or carers seeking the admission of a pupil with mobility difficulties are advised to approach the school well in advance so that consultations can take place. The school's Accessibility Plan/Strategy is available on request or from the school website.

SEND Information Report

Schools have a duty to publish SEND information annually so that parents/carers can see what support a school provides for its pupils. This will be accessible on the website for each individual school, see the websites for the latest updates.

Aims and Objectives

To provide the structure for a student-centred process that engages student, family, school and other professionals in planning for and implementing high quality, needs led provision that is consistent across the school. This is to ensure all of our students are able to access the same opportunities for learning and social development achieving maximum progress, fulfilling their potential and promoting their well-being.

The SEND Policy of The Federation of Tiverton Schools reflects the principles of the 0-25 SEND Code of Practice (2015). The aims of this special educational needs policy are to:

- Ensure the Equality Act 2010 duties for students with disabilities are met,
- To enable students with special educational needs to have their needs met,
- To consider the views of the students with special educational needs,
- To encourage good communication and genuine partnerships with parents/carers of children with special educational needs,
- To facilitate full access to a broad, balanced and relevant education, including an appropriate National Curriculum, for students with special educational needs,
- In conjunction with the Medical Policy, plan to support students with medical conditions and to have regard to statutory guidance supporting students at school with medical conditions,
- To implement a graduated approach to meeting the needs of students using the Assess, Plan, Do, Review process,
- Develop a culture of inclusion valuing high quality teaching for all learners, with teachers using a range of effective differentiation methods,
- Employ a collaborative approach with learners with a SEN or disability, their families, staff within school, other external agencies including those from Health and Social Care,
- Set appropriate individual learning outcomes based on prior achievement, high aspirations and the views of the learner and family,
- Share expertise and good practice across the school and local learning community,
- Make efficient and effective use of school resources,
- Have regard to the Code of Practice (2015) for the identification, assessment, support and review of special educational needs,
- Have regard to guidance detailed by Devon County Council.

Identifying and supporting Special Educational Needs & Disabilities

Definition of SEN

Students have special educational needs if they have a learning difficulty or disability which calls for special education provision to be made for him/her namely provision **which is additional to or different from** that normally available in a differentiated curriculum.

The Federation of Tiverton Schools regards students as having a Special Educational Need if they:

- Have a significantly greater difficulty in learning than the majority of students of the same age, or;
- Have a disability which prevents or hinders him/her from making use of facilities of a kind generally provided for others of the same age in mainstream schools or mainstream post-16 institutions

Special Education Needs and Disability Code of Practice: 0-25 years January 2015

https://www.gov.uk/government/uploads/system/uploads/attachment_data/file/398815/SEND_Code_of_Practice_January_2015.pdf

Students must not be regarded as having a learning difficulty solely because the language or form of language of their home is different from the language in which they will be taught.

The Federation of Tiverton Schools will have regard to the SEND Code of Practice 2015 when carrying out its duties towards all students with SEND and ensure that parents/carers are informed by the school that SEND provision is being made for their child.

There may be times in a student's school career when they are identified as having a Special Educational Need. These students will be provided with intervention and/or support that is 'additional to or different from' the normal differentiated curriculum. This may be on an ongoing basis or for a limited time. Many students with sensory and/or physical disabilities may require adaptations, made as reasonable adjustments under the Equality Act 2010.

Areas of Special Educational Need

Under the SEND Code of Practice 2015, students identified as having a special educational need (SEN) will be considered within one or more of the following categories of need:

Cognition and Learning;

Children with learning needs may learn at a slower pace than other children may and may have difficulty developing literacy or numeracy skills or understanding new concepts. Learning needs may be in addition to or because of other special educational needs.

Children with a specific learning difficulty (SpLD) will have difficulties related to one or more of dyslexia (reading and spelling), dyscalculia (maths), dyspraxia (co-ordination) and dysgraphia (writing).

Learning difficulties cover a wide range of needs, including moderate learning difficulties (MLD), severe learning difficulties (SLD), where children are likely to need support in all areas of the curriculum and associated difficulties with mobility and communication, through to profound and multiple learning difficulties (PMLD), where children are likely to have severe and complex learning difficulties as well as a physical disability or sensory impairment.

Cognition and Learning needs include:

- Specific learning difficulties (SpLD)
- Moderate learning difficulties (MLD)
- Severe learning difficulties (SLD)
- Profound and multiple learning difficulties (PMLD)

Social, Mental, Emotional and Health Difficulties

Children may experience a wide range of social and emotional difficulties, which manifest themselves in many ways. These may include becoming withdrawn or isolated, as well as displaying challenging, disruptive or disturbing behaviour. These behaviours may reflect underlying mental health difficulties such as anxiety or depression, self-harming, substance misuse, eating disorders or physical symptoms that are medically unexplained.

Other children may have disorders such as attention deficit disorder, attention deficit hyperactive disorder or attachment disorder.

Communication and Interaction needs

Children with speech, language and communication needs (SLCN) have difficulty in communicating with

- Has communication and interaction difficulties and continues to make little or no progress despite the provision of an appropriate differentiated curriculum.
- Has emotional or behavioural difficulties which substantially and regularly interfere with the student's own learning or that of the class groups, despite having an individualised behaviour support programme;
- Has SEND or physical needs that require additional specialist equipment or regular advice or visits by a specialist service;
- Has a communication and interaction difficulty that impedes the development of social relationships and cause a substantial barrier to learning.

Where it is determined that a pupil does have Special Educational Needs and/or a Disability (SEND) the parents/carers will be formally advised and the pupil will be placed on the school's SEND register. The school will take appropriate action to support learning and put effective special educational provision in place. This is termed **SEN support**.

Assess, Plan, Do and Review

Where a student is identified as having SEN, we will act to support effective learning by removing barriers to learning and put effective special educational provision in place. This **SEN support** will take the form of a four-part cycle through which earlier decisions and actions are revisited, refined and revised with a growing understanding of the student's needs and of what supports the student in making good progress and securing good outcomes. This is known as the **graduated approach – assess, plan, do, review**.

For students with low level special educational needs the cycle of **Assess, Plan, Do and Review** will fit into the regular termly assessment and planning cycle for all students. For those students with more complex needs or for who a more frequent cycle needs to be employed additional meeting dates will be set (as needed) and will include the termly Student Progress Meetings/Parents evenings.

All schools in the Tiverton Federation use an online program called 'Provision Map' as a tool to collate and support effective working with all staff and plan to meet the needs of pupils.

Assess

- **In identifying a student as needing SEN support the class teacher, working with the SENCo, should carry out a clear analysis of the student's needs. This should draw on the teacher's assessment and experience of the student, their previous progress and attainment, as well as information gathered from other areas of the school.**
- **The student's development in comparison to their peers and national data should also be considered along with the parent's views and experience, the student's views and, if relevant, advice from external support services. These will be recorded within the child's one-page profile / Passport on Provision Map. The school and parents/carers will meet, where appropriate, with other agencies including those from Health and Social Care to create and up-date this plan.**
- **This assessment will be reviewed regularly to ensure support and intervention are matched to need, barriers to learning are identified and overcome so that a clear picture of the interventions put in place and their impact is developed. With some areas of SEN, the most reliable method of developing a more accurate picture of need will be the way in which the student responds to an intervention.**

Plan	<ul style="list-style-type: none"> Parents/carers, with their child, will meet with the class teacher and/or the SENCo to decide on the interventions and support to be put in place as well as the expected impact on progress and development. This will be recorded on Provision Map with a date to review the plan. The date for review will depend on the level of need present. The Provision will clearly identify the areas of needs, the desired outcomes, the support and resources provided, including any teaching strategies or approaches that are required and when the Provision will be reviewed. The support and intervention provided will be selected to meet the outcomes identified for the student, based on reliable evidence of effectiveness and will be provided by staff with appropriate skills and knowledge. The plan of support for the pupil will usually involve a contribution by parents/carers to reinforce learning at home with appropriate materials provided from school (teacher and/or SENDCo as appropriate) Where appropriate, the pupil's One-page profile/Passport or provision plan on Provision Map will detail the support from other agencies and how this will support the student in achieving the desired outcomes. Parents/carers will then be formally notified by letter when it is decided to provide a student with SEN support (although parents/carers should have already been involved in the assessment of need). if it is agreed that a student requires SEN support, all parties meet and develop the plan detailing the support which will bring about the next part of the cycle. This will be recorded on Provision Map.
Do	<ul style="list-style-type: none"> The class teacher remains responsible for working with the student on a daily basis and will work closely with any teaching assistants or specialist staff involved, to plan and assess the impact of support and interventions and how they can be linked to classroom teaching. The SENCo will support the class teacher in the further assessment of the student's needs, in problem solving and advising on the effective implementation of support. The class teacher is responsible for the daily implementation of the plan and will contribute to the review.
Review	<ul style="list-style-type: none"> There will be a review of the provision and plan on the date previously agreed. This review will evaluate the impact and quality of the support and interventions and include the views of the student and their parents/carers. Parents/carers will be given information about the impact of the support and interventions provided enabling them to be involved with planning the next steps. Where appropriate other agencies will be asked to contribute to this review. Where a student has complex needs involving more than one agency it will depend on the students' needs and the frequency of the educational reviews as to whether external agencies attend each educational review, this will be agreed between school, parents and agencies. This review will feedback into the analysis of the student's needs, then the class teacher, working with the SENCo, will revise the support in light of the student's progress and development, with decisions on any changes made in consultation with the parent and the student. This will be recorded on the One-page profile/Passport on Provision Map. Where there is a sustained period of insufficient or no progress, the school may decide to gain involvement and advice from a specialist or external agency. The school will consult with parents/carers before involving a specialist or external agency.

Further details of Devon's Graduated Approach can be found in Appendix 1.

Exit Criteria

When a student has made sufficient progress in their area of need that they no longer require any provision that is **different from** or **additional to** that which is normally available as part of high quality and differentiated teaching they will no longer be seen as requiring SEN Support.

Statutory Assessment of Needs (Education Health and Care Plans)

Where, despite the school having taken relevant and purposeful action to identify, assess and meet the Special Educational Needs and/or Disabilities of the student, the child has not made expected progress, the school or parents/carers could consider requesting an Education, Health and Care (EHC) needs assessment. The application for an Education, Health and Care Plan will combine information from a variety of sources including: Parents and Carers, Teachers, SENCO, educational professionals, Children's Social Care and Health professionals. Much of this information will be evidence already collected by the school and will relate to the current provision provided, the actions the school has taken, and the preliminary outcomes of targets set. A decision will be made by the SEN 0-25 Team about whether or not the child is eligible for an EHC needs assessment.

Parents have the right to appeal against a decision not to initiate a statutory assessment. Information to support parents with this is via the Devon County Council website link:

<https://new.devon.gov.uk/educationandfamilies/special-educational-needs-and-disability-send-local-offer/support-education-health-and-care/education-health-and-care-ehc-plans>

Where a pupil has an Education Health and Care Plan (EHCP), the Local Authority must review the EHCP every twelve months as a minimum. Schools have a duty to co-operate therefore The Federation of Tiverton Schools will hold annual review meetings on the behalf of Devon Local Authority (LA) and complete the appropriate paperwork for this process.

For further SEND information parents/carers are also encouraged to visit the Devon County Council Local Offer website www.devon.gov.uk/send.

As required in the SEND Code of Practice (2015) Devon has an independent support body for parents and their website address is:

<https://www.devonias.org.uk/>

SEND Funding

Schools receive a basic entitlement funding, sometimes referred to as Element 1, the AWPU (Average Weighted Pupil Unit). Schools are expected to meet the needs of **all** learners from this allocation.

Additional funding which comes into school for pupils with SEND is allocated according to various data contexts and other demographic factors, using the funding formula. Pupils who are identified as having a Special Educational Need are supported using this additional funding – usually referred to as Element 2. This is within the general school budget.

The high needs block funding for pupils who require a personalised arrangement (which is an Education, Health & Care Plan - EHCP) is allocated per pupil upon application by the school with evidence of rationale

for need. The Local Authority make decisions about how much this top up funding will be per pupil. This is referred to as Element 3. Within this Element, there are descriptors which define the levels of funding allocated.

A full explanation of Devon SEND funding to schools can be found at:

<https://www.devon.gov.uk/supportforschools/finance/additional-educational-needs>

Each setting within the Federation of Tiverton Schools reviews its SEND budget throughout the year and allocates SEND funds carefully in order to support our SEND cohort. This is monitored by governors and through the use of the Devon SEND Funding Evaluation Tool which is completed annually.

Personal Budgets

Personal Budgets are only available to pupils with an Education, Health and Social Care Plan (EHCP) or pupils who are currently under-going a needs assessment for an EHCP. Funding can be made available to parents/carers as a personal budget for them to commission their own provision for their child under certain conditions.

Monitoring and Evaluation of SEND

Regular monitoring of the quality of provision for all students including those with SEND follows the school's assessment and monitoring calendar. In addition, the cycle of Assess, Plan, Do and Review ensures that students with SEND have their individual provision reviewed regularly, and at least termly. Additional training, advice and support will be provided to teaching staff where necessary in order to facilitate student progress and to meet student needs.

Student progress is tracked half-termly and where students are not making sufficient progress additional information is sought and appropriate action taken.

Roles and Responsibilities

Provision for students with special educational needs is a matter for the school as a whole. In addition to the Governing Board, Head Teacher and the SENDCo, all members of staff have important responsibilities.

Governing Body:

The Governing Body endeavours to follow the guidelines as laid down in the SEND Code of Practice (2014) to:

- use their best endeavours to make sure that a child with SEN gets the support they need – this means doing everything they can to meet children and young people's Special Educational Needs and Disabilities
- ensure that children and young people with SEN engage in the activities of the school alongside students who do not have SEN
- designate a teacher to be responsible for co-ordinating SEND provision – the SEND co-ordinator, or SENDCo.
- inform parents/carers when they are making special educational provision for a child
- prepare and publish a SEND information report and their arrangements for the admission of disabled children, the steps being taken to prevent disabled children from being treated less favourably than others, the facilities provided to enable access to the school for disabled children and their accessibility plan showing how they plan to improve access progressively over time

Head teacher:

The Head teacher has responsibility for the day-to-day management of all aspects of the school's work, including provision for children with special educational needs. The Head teacher will keep the Governing Body fully informed on Special Educational Needs issues. The Head teacher will work closely with the SENDCo and the Governor with responsibility for SEND.

SENDCo:

In collaboration with the Head teacher and governing body, the SENDCo determines the strategic development of the SEND policy and provision with the ultimate aim of raising the achievement of students with SEND.

The SENDCo takes day-to-day responsibility for the operation of the SEND policy and co-ordinates the provision for individual children, working closely with staff, parents/carers and external agencies. The SENDCo provides relevant professional guidance to colleagues with the aim of securing high-quality teaching for young people with special educational needs.

Through analysis and assessment of children's needs, and by monitoring the quality of teaching and standards of students' achievements and setting targets, the SENDCo develops effective ways of overcoming barriers to learning and sustaining effective teaching.

The SENDCo liaises and collaborates with class teachers so that learning for all children is given equal priority.

The principle responsibilities for the SENDCo includes:

- Overseeing provision for children with SEND. (Special Educational Needs and/or Disabilities).
- Co-ordinating and evaluating provision, including interventions, for children with SEN.
- Liaising with, supporting advising and training teachers whenever necessary.
- Interpreting legal requirements for staff, parents and governors.
- Overseeing the records of all children with SEND and ensuring these are kept up to date, alongside class-teachers.
- Liaising with parents/carers of children with SEND.
- Organising and delivering in-service training in order to meet the needs of staff and monitoring the effectiveness of this.
- Liaising with external agencies including the LA's support and educational psychology services, health and social services and voluntary bodies and other schools.
- Advising on and overseeing the Assess, Plan, Do Review (APDR) process for all SEND pupils.
- Working with the Head teacher and the school governors to ensure that the school meets its responsibilities under the Equality Act (2010) with regard to reasonable adjustments and access arrangements.

Parents/carers of a child with SEND support will have the opportunity to meet with a member of the SEND team at least **once** a year formally if required.

All Teaching and Non-Teaching Staff:

- All staff are aware of the school's SEND policy and the procedures for identifying, assessing and making provision for students with special educational needs.
- Class teachers are fully involved in providing high quality teaching, differentiated for individual students. This includes reviewing and, where necessary, improving, their understanding of strategies to identify and support vulnerable students and their knowledge of the SEN most frequently encountered.
- Class teachers are responsible for setting suitable learning challenges and facilitating effective special educational provision in response to students' diverse needs in order to remove potential barriers to learning. This process should include working with the SENCo to carry out a clear analysis of the student's needs, drawing on the teacher's assessment and experience of the student as well as previous progress and attainment.

Supporting Students and Families

We value and accept the positive role and contribution parents/carers can make. We make every effort to work in full co-operation with parents/carers, recognising and respecting their roles and responsibilities. Parents/carers are encouraged to work with the school and other professionals to ensure that their child's needs are identified properly and met as early as possible.

In order that they play an active part in their child's development, the school endeavours to provide parents/carers with the relevant information so they can reinforce learning in the home.

The Federation of Tiverton Schools endeavours to work alongside parents/carers so that they:

- Feel fully supported and taken seriously should they raise a concern about their child
- Recognise and fulfil their responsibilities and play an active and valued role in their child's education
- Understand procedures and documentation
- Are able to make their views known about how their child is educated
- Have access to information, advice and support during assessment and any related decision-making process about special educational provision.

Parents/carers of a child with SEN support will have the opportunity to meet with the SENDCo and/or member of the SEND team to discuss their child's needs. Parents/carers are encouraged to seek help and advice from the Devon Independent Information Advice and Support services. This service is able to provide impartial and independent advice, support and information on special educational needs and disabilities.

<https://www.devonias.org.uk/>

Parents/carers are also encouraged to visit the Devon County Council Local Offer website www.devon.gov.uk/send. This website provides valuable information about different agencies, services and resources for children, young people with SEND and their families in addition to school resources and information.

Parents will always be kept up to date about the Special Educational Needs of their children in accordance with the recommendations outlined in the Code of Practice. Communications between Home and the school will be consistently maintained, this could be via conversations with class-teachers, email or phone calls. Parents/carers will be fully consulted before the involvement of external support agencies with their children, and will be invited to attend any formal review meetings at all stages.

Children in Care

When a child is in care, the carers are accorded the same rights and responsibilities as parents. The school has both an appointed member of staff and a governor for Looked after Children. The SENCO will liaise closely with the designated member of staff where the pupil also has a SEN to ensure provision is appropriate.

Student Voice

We hold the views of students highly and recognise the importance of gaining genuine student views in promoting the best student outcomes. Students are able to share their views in a number of different ways (appropriate to age and ability).

These views are welcome at any time but are specifically sought as part of their annual review, as part of their Team Around the Child (TAC) meeting and at the end of a targeted intervention. We ask all students to contribute to the setting of their own outcomes.

Meeting Medical Needs

The Children and Families Act 2014 places a duty on schools to arrange to support students with medical conditions. Individual healthcare plans will normally specify the type and level of support required to meet the medical needs of such students. Where children and young people also have SEN, their provision will be planned and delivered in a co-ordinated way using the DAF paperwork.

The school recognises that students at school with medical conditions should be properly supported so that they have full access to education, including school trips and physical education. Some children with medical conditions may be disabled and where this is the case, the school will comply with its duties under the Equality Act 2010.

Arrangements that are in place to support pupils with medical conditions can be found by accessing the school's ***Children with Medical Needs Policy for further details.***

Accessibility

The Disability Discrimination Act 1995 (DDA) as amended by the SEN and Disability Act 2001 and the Equality Act 2010, places a duty on all schools and Local Authorities to plan to increase over time the accessibility of schools for disabled pupils. For further information on the school's current Accessibility Plan and Disability Policy please contact the SENCo or see the Accessibility Plan on the website for each individual school within the federation.

Children in Hospital

The member of staff responsible for ensuring that students with health needs have proper access to education will liaise with other agencies and professionals * E.g. *medical agencies, Hospital School, DPLS* as well as parents/carers, to ensure good communication and effective sharing of information. This will enable optimum opportunities for educational progress and achievement.

Partnership with External Agencies

The School is supported by a wide range of Devon agencies and teams. The schools SEND Information report details which agencies the school have worked with during the past 12 months. This report can be found on the website or each individual school and is up-dated annually.

Transition

A change of school, class and staff can be an exciting, yet anxious time for all students. We recognise that this can be very challenging for some students with SEND. We endeavour to make sure these periods of change are carefully managed in a sensitive way to provide continuity of high quality provision and reassurance to students and families.

Training and Resources

The Federation of Tiverton Schools understands the need for and value of staff development. Training needs of colleagues are identified through appraisal processes, staff questionnaires, feedback from staff training and from discussions during department meetings. SEND training is embedded in the overall planning for school development and outlined in the School Development Plan. Resources and time are allocated to colleagues which ensures they are up to date with SEND procedures, strategies and knowledge.

The SENCO regularly attends Local Authority SENCO network meetings in order to keep up to date with local and national updates in SEND. These are shared with appropriate members of staff as appropriate through email updates or briefings in staff meetings.

General Data Protection Regulation (GDPR) 2018

The Federation of Tiverton Schools collects, uses and stores information about you and may receive information about you from your previous school. This information helps us:

- Support your teaching and learning
- Follow and report on your progress
- Provide the right care and support for you
- Understand how well your school is doing as a whole

The information we keep (although not limited to) includes contact details; assessment marks and results, attendance records; other information such as ethnic group or religion; special educational needs; and any relevant medical information.

We are required (through GDPR) to take care of all information and we take this responsibility seriously. We will not give information about you to anyone outside the school without your consent unless the law and our rules permit it. We are required by law to pass some of your information to the Local Authority (LA), and the Department for Education (DfE).

If you require more information about how the Local Authority store this data, you can visit the following website:

<https://new.devon.gov.uk/keepingdevonsdata/education-and-learning/>

Please also refer to Privacy Notices available on each individual school's website.

Responding to Complaints

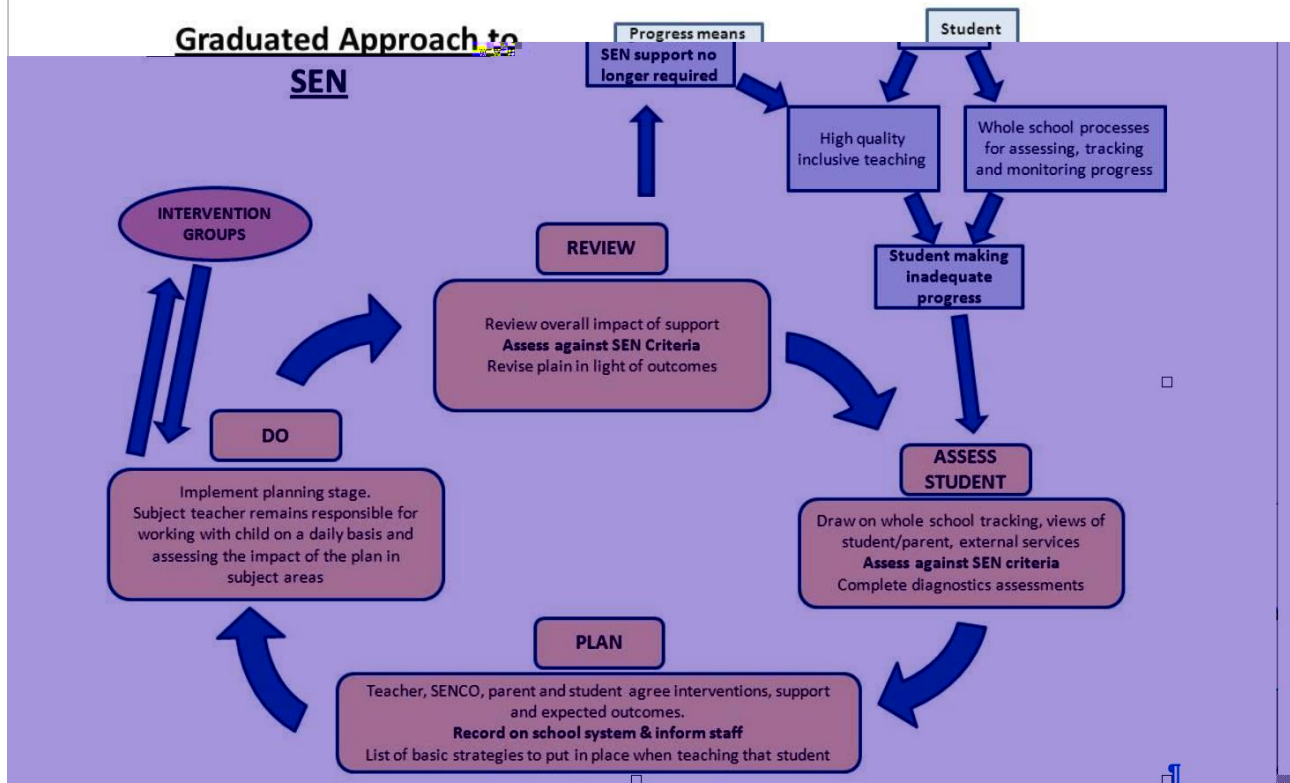

The procedures for making a complaint against the school are outlined in the School's Complaints Policy. The policy can be accessed via the website for each individual school or via the school office.

All concerns or enquires about a pupil with special education needs and/or disabilities or the SEND provision should be dealt with by the class teacher, the SENCo or the Headteacher. If a parent/carer does not feel an issue has been resolved effectively please refer to the School's complaints policy here:

<https://tiverton.devon.sch.uk/wp-content/uploads/2021/09/THS-Complaints-Policy-revised-2021.pdf>

If there continues to be disagreement with regard to SEND provision the Local Authority should make arrangements that include the appointment of independent persons with a view to avoiding or resolving disagreements between the parents/carers and the school. This includes access to mediation before tribunal. Parents/carers have a right to appeal to a SEND tribunal at any stage.
